

# AMYOTROPHIC LATERAL SCLEROSIS: APPLYING TELEMEDICINE TO CLINICAL PRACTICE AND RESEARCH

RSVP

This 1-hour webinar, with a live Q&A, will outline how the ALS community has adapted the use of telemedicine in clinical practice and research. International experts in the field of ALS will describe their own experiences of using telemedicine in both clinical and research settings and discuss the strategies they used and the lessons that were learned from the use of telemedicine. Finally, the application of telemedicine to a patient-centric clinical trial design will be discussed, specifically in the PHOENIX trial (A35-004), evaluating the safety and efficacy of coformulated sodium phenylbutyrate/taurursodiol (ursodoxicoltaurine; PB/TURSO) in ALS.

International expert panel participating in the webinar can be seen on the right.

Space is limited, so please register as soon as possible by clicking on the "RSVP" button.

Amylyx is a proud supporter of the 32nd Virtual International Symposium on ALS/MND.

If you have any questions, please send an email to [AmylyxMNDASym2021@gcoglobal.com](mailto:AmylyxMNDASym2021@gcoglobal.com).

THURSDAY  
DECEMBER 9, 2021  
7:30 AM – 8:30 AM EST  
1:30 PM – 2:30 PM CET

## FACULTY

**Prof. Adriano Chiò, MD**

Professor of Neurology, Rita Levi Montalcini Department of Neuroscience, University of Turin Director, Neurology Unit at University of Torino and Città della Salute e della Scienza Hospital Torino, Italy

**Prof. Albert Ludolph, MD**

Professor of Neurology, Chair of the Department of Neurology, University of Ulm, Medical Director University Neurology Clinic of Ulm Ulm, Germany

**Prof. Chris McDermott, MBChB, FRCP, PhD**

Professor of Translational Neurology, Head of Department of Neuroscience, SITraN, The University of Sheffield, Consultant Neurologist, Sheffield Teaching Hospitals Foundation NHS Trust Sheffield, England

**Sabrina Paganoni, MD, PhD**

Co-Director, Neurological Clinical Research Institute Department of Neurology, Massachusetts General Hospital Department of PM&R, Spaulding Rehabilitation Hospital Harvard Medical School Sean M. Healey & AMG Center for ALS at Mass General Hospital Boston, MA

**Prof. Leonard H. van den Berg, MD, PhD**

Professor Of Neurology, Chair In Experimental Neurology of Motor Neuron Diseases, University Medical Center Utrecht, Netherlands Director, Center's Laboratory For Neuromuscular Disease, Director Of The Netherlands ALS Center, Chairman Of The Neuromuscular Centre The Netherlands, Chairman of The European Network To Cure ALS (ENCALS) Utrecht, Netherlands
